WORK EXPERIENCE

Freelance, Remote   Dec 2022 – Present
Full Stack Web Developer
- Excelled as a freelance WordPress specialist for 8 months, adeptly utilizing page builders like Elementor, WP Bakery, and more to bring client visions to life.
- Crafted unique custom WordPress page templates by harnessing the power of HTML, CSS, JS, and Tailwind CSS, resulting in visually striking and innovative digital experiences.
- Demonstrated adaptability and creativity across diverse projects, consistently delivering visually appealing, functional, and user-centric websites.
  Advanced Skills: Web Development, MySQL, JavaScript, PHP, Wordpress, Bootstrap, TailwindCSS

Wizspeed, Remote, Chicago   Dec 2021 – Dec 2022
Web Developer
- Developed and deployed 2 end-to-end systems for a startup, including a project showcase and a client onboarding system that increased client user experience to 100%. Projects are fully maintained using Github code versioning.
- Worked directly with clients to gather project requirements and implement use cases.
- Built 5 front-end projects from scratch using templates from Adobe XD, Photoshop, and Figma using Elementor, Divi, and Visual Composer Page Builder.
- Deployed Webuzo(Multi User Control Panel) on a bare-metal cloud server to manage 10+ client websites with fast response time.
  Advanced Skills: Web Development, MySQL, JavaScript, PHP, Wordpress, Laravel, Server Management, Custom Wordpress Development.

AAMPOWER PVT. LTD., Multan, Punjab   Nov 2020 – Nov 2021
Web Developer
- Designed and developed a fully functional Inter-department inventory management system that keeps track of 1000+ products, 400+ employees, and 10000+ customers of the leading auto-parts manufacturer in the country.
- Implemented Twilio WhatsApp API that instantly delivers order receipts to customers' WhatsApp numbers.
- Designed a Fast and Responsive Online Grocery store using Bacola Wordpress theme and Elementor Page Builder.
- Built an E-commerce store for Kid's toys shopping using Flatsome Wordpress Theme.
  Advanced Skills: C#, ASP.NET, MySQL, SQL, Rest API Integration, Wordpress, Plesk, Server Management

PROJECTS

Wizspeed (*Skills: Wordpress, Custom Wordpress Development, Advanced Custom Fields, PHP*) - Live
- Designed and Developed a startup website using Wordpress startup Website. Converted Adobe Photoshop templates into wordpress using Elementor Page Builder. Created custom pricing page using HTML, CSS, PHP, Javascript, Wp shortcodes, and Phpmailer. Data for pricing tables is derived from Laravel Rest API for central management.

Potted Goods Store (*Skills: Wordpress, Elementor*) - Live
- Elegant-looking Wordpress E-commerce store for sustainable home plants. The store has been designed keeping minute user experience details into consideration. Converted Figma Design into a website using Elementor Page Builder.

React Portfolio (*Skills: HTML, CSS, Javascript, ReactJS*) - Live
- Created a personal portfolio website using ReactJS with the help of an open-source template. Utilized various libraries and react sections.
